Introduction

Our brand guidelines have been created to help bring consistency to the way we communicate about Dunbia.

Our visual identity is an important part of our organisation. It represents the outward 'face' of Dunbia. The Dunbia identity is clean, clear, and uncluttered with a fresh colour palette.

By applying the guidelines consistently, all of these elements can work together to reinforce our key brand messages of being a trustworthy, professional and dynamic organisation.

Some guidelines can be quite complicated, but in our opinion the simpler the better! So our aim has been to make these guidelines easy to use which in turn will help to keep our brand consistent across a range of media and continents.

We begin by taking you through the basics of using the key elements of our identity – our logo, typefaces and colour palette. After that, you'll find plenty of templates showing you how to apply the guidelines to our most widely used items of literature and stationery together with some useful examples of appropriate photographic and illustration styles.

We've tried to provide as much advice as possible. However, they can't cover every eventuality. If you are in doubt or need some further assistance, please contact the Marketing Department or email marketing@dawnmeats.com

Logo Usage

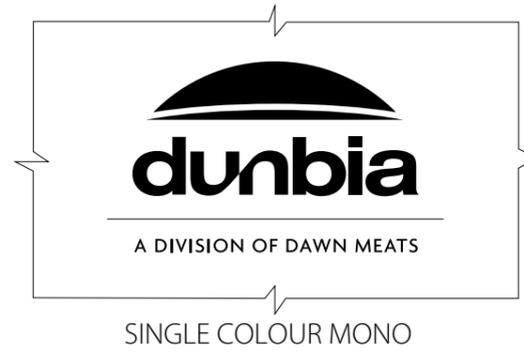

Our logo is the cornerstone of our brand and we must ensure proper usage.

As a rule the preferred way to use the Dunbia logo is full colour over a white/light background. Every attempt must be made to do this.

If the logo must be placed on a dark or coloured background you can use the full colour or the full colour reversed out version as long as either is clearly legible, if they are not then the logo can be reversed out or used in a single colour.

Logo Exclusion Zone

The logo must be surrounded with a minimum amount of clear space to ensure it is legible. This clear space isolates the logo from competing elements such as photography, text or background patterns that may detract attention and lessen its overall impact.

Using the logo in a consistent manner across all applications establishes and reinforces immediate recognition of the Dunbia brand.

MINIMUM SIZE

The Dunbia logo with strapline must not be used less than 45mm across, any smaller and Dunbia logo less strap must be used. Finally due to legibility issues, the Dunbia logo less strap must never be used any smaller than 10mm in height.

Logo Misuse

Do not create alternative versions of the Dunbia logo. Do not rearrange, re-colour, truncate or distort the logo in any way.

Do not use elements of the logotype to create additional Dunbia symbols and don't add additional graphic elements to the logo unless there is a specific marketing objective briefed by the Marketing Department.

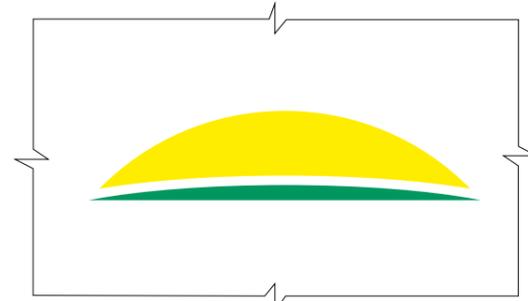

Any attempt to do any of the above causes confusion and devalues the singularity of the Dunbia brand and is therefore prohibited.

DO NOT DISTORT

DO NOT PUT INTO WHITE BOX

Brand Guardians

These guidelines are very specific but clear with simple and flexible rules about how our brand should appear. Consistency will deliver a strong brand that maintains a positive and lasting impression of Dunbia.

This document is designed to protect the identity of Dunbia. Following the guidelines carefully and using them effectively will ensure we use our brand properly and consistently across our communication platforms.

If you need more information about the Dunbia brand guidelines please contact the Marketing Department.
